

Window Painting

A quick, easy and mess free activity for younger children!

1 Ziploc Bag

Washable Finger paints

Duct Tape

Optional: Sensory objects for child to use to "paint" with. Foam blocks, pom-poms, etc.

Fill Ziploc bag with Washable Finger Paint to desired fullness.

Use Duct Tape to attach Ziploc Bag to window with the sun shining through. I recommend taping all four sides of Ziploc bag to prevent any accidents!

Let your child's imagination run free!

Hoping you and your little ones have a blast!
